Turn right along road to fp on left "Woodwell & Gibraltar". Fp goes left around a field edge and in 90m path divides – take right fork for Woodwell. Descend steeply to the well - the wells and springs of Silverdale once supplied water for all the villagers and their

livestock. Can you spot the spring?

Cross the road to fp opposite at the top of the hill. Follow fp through the woods and down to the shore.

3: SD 470 738

Turn right along shore to chimney near Brown's Houses - it is now believed that the chimney is most likely to be the remains of a short-lived copper mining and smelting project set up by Robert Gibson in the 1780s. Continue along shore to road. Shortly after the road turns right at Jenny Brown's Point take fp on left to Jack Scout.

4: SD 461 734

Pause for a moment to consider the plight of the pleasure yacht 'Matchless' which sank just off Jenny Brown's Point in 1894 in a sudden squall with the loss of 25 lives.

Follow along edge of cliffs to re-join road – as you climb see if you can find the "Giant's Seat" GR 459 738.

Great spot for a selfie!
