**Author: Paracordaholic**

I love building, hunting, fishing, camping, and all things out doors.

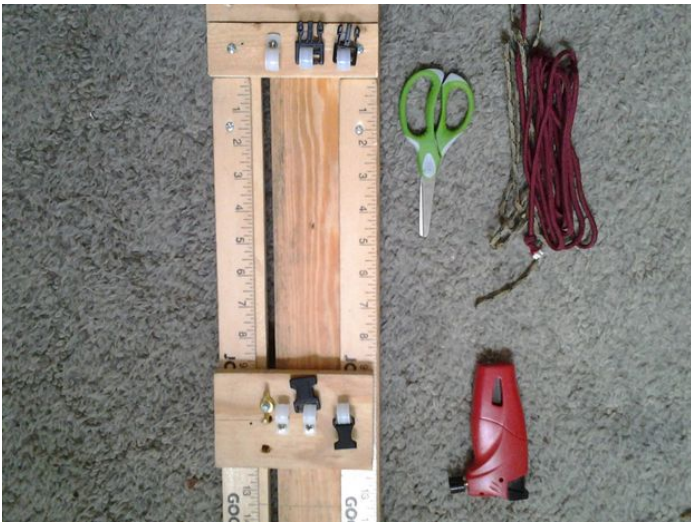

## **Intro: Piranha Weave Bracelet**

This is a fun and easy bracelet for beginners or intermediate level paracord bracelet makers. It is best done on a paracord jig which plans can be found on this website. Sorry if the pictures are bad I'm doing this on my tablet.

## **Step 1: Materials needed**

- 1: About 7 to 10 feet of paracord
- 2: Scissors
- 3: Butane lighter
- 4: 1/2 buckle
- 5: Paracord jig (optional)

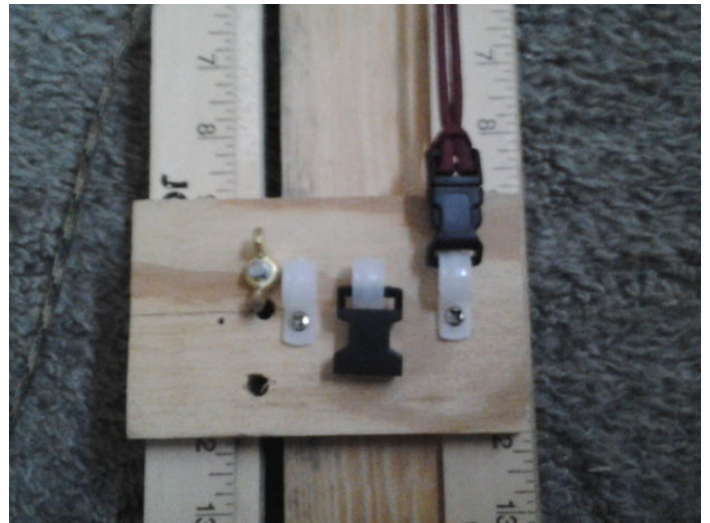

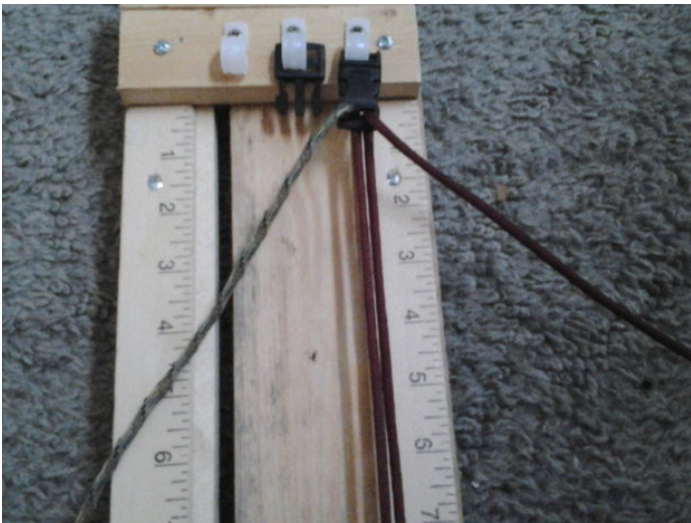

## **Step 2: Paracord Lengths**

First you need to get the paracord, I'm making a double color, so on my red I have it about a foot longer for the base color (what you weave on) then I melted them together.

### Step 3: Starting

First you need to string the paracord on the buckle halves.

### Step 4: The Started Weave

For this step make a regular cobra weave.

### Step 5: Next

Now take the right hand cord and go through the middle.

### Step 6: Then

Take the left hand cord and go under the right hand cord and through the middle.

### Step 7: Repeat

Repeat step 6 on the other side.

### Step 8: Keep Going

Keep repeating steps 6 and 7 to make the bracelet.

### Step 9: Last Step

Once you have no more room for anymore weaves do another cobra weave (as in step one) then melt and your done.

### Step 10:

Thanks for reading feel free to leave comments, suggestions, and tips.
