## Intro: Paracord Guys

These guys look great on backpacks and are fun to play with.

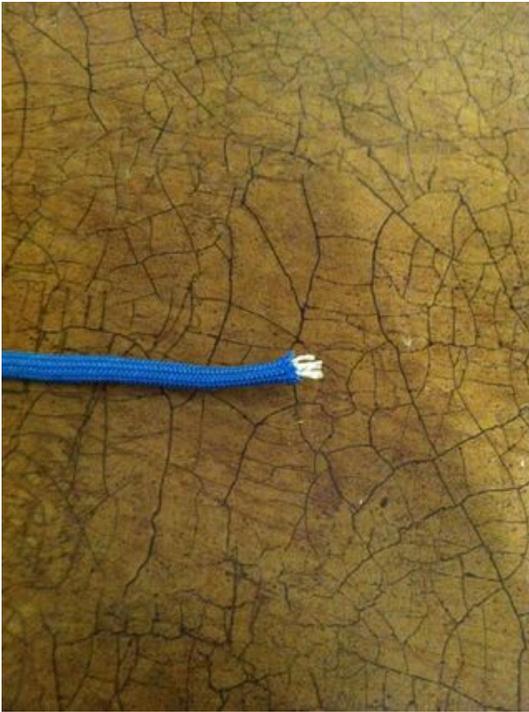

## Step 1: Supplies

You need 2 different colors of paracord scraps each one about a foot, a lighter,scissors,and a key ring.

### Step 2: Burn Rope

You will need to make sure that all ends are melted.

### Step 3: The Head And Key Ring

Tie the knot in the picture

#### Step 4: The Body

Start with an overhand knot then proceed to make the cobra knot till you have the body length you want. Remember to pull tight

### Step 5: Hands And Feet

Tie over hand knots on the legs and arms. I suggest making the arms go down to the bottom of the body.

**Step 6: Cut And Burn**

Cut the ends then melt then, using scissors press the melted end into the hand and, voila! You're done!!! Good jobs guys!

**Step 7: Other Fun Ideas!**

Let your imagination do the work for you, and have fun!
